Dear Mayor and Members of Council:

A Community Reinvestment Area (CRA) offers tax incentives on real property for eligible businesses and residences. The City Council adopted EOR2012-7-57 and EOR2013-2-25 to create and amend the Community Reinvestment Area, which was confirmed by the Ohio Development Services Agency on May 14, 2013. Through discussions with staff, attorneys and potential project developers regarding the City's CRA several amendments to the existing CRA are being proposed.

1. An amendment to the existing City-wide CRA ordinance removing property from the existing CRA and authorizing an additional 10 years of abatement for certain historical structures.
2. An ordinance creating the Main-High Corridor CRA that would include new residential construction projects as an eligible abatement under the Main-High Corridor CRA.
3. An ordinance creating the University Commerce Park CRA that would include new residential construction projects as an eligible abatement under the University Commerce Park CRA.

It is the recommendation of this office that Council receives this report, concurs in the recommendation, and directs the preparation of the necessary legislation.

Policy Issue

Does City Council wish to rezone 1401 NW Washington Boulevard (City Lot No. 23727), located in the City of Hamilton, First Ward North Side, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District?

Policy Alternatives

Council may choose to not rezone 1401 NW Washington Boulevard (City Lot No. 23727), located in the City of Hamilton, First Ward North Side, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District.

Staff Recommendation

It is the recommendation of this office that Council receives this report, concurs in the Recommendation of the Planning Commission, and adopts the necessary legislation to rezone 1401 NW Washington Boulevard (City Lot No. 23727), located in the City of Hamilton, First Ward North Side, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District.

Statutory/Policy Authority

- Section 3.09, Legislative Procedure, of the Charter of the City of Hamilton

Fiscal Impact Summary

The City's current fiscal impact includes any staff time allotted to the request to rezone 1401 NW Washington Boulevard (City Lot No. 23727), located in the City of Hamilton, First Ward North Side, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District estimated at approximately \$200.00.

Background Information

AurGroup Financial Credit Union is requesting to rezone 1401 NW Washington Boulevard (City Lot No. 23727) in order to combine the two parcels into a single parcel to allow for a canopy expansion onto the existing bank's Drive Thru. There are two parcels of land that make up the AurGroup property and the two properties are currently zoned differently. The property where the bank building is located is currently zoned R-O Multi-Family Residence/Office District and the parking lot parcel to the east is zoned R-4 Multi-Family Residence District. A zoning map is attached to this application as Attachment 2. This rezoning is the first necessary step in order to permit the canopy extension for the AurGroup Financial Credit Union. Plans for the proposed canopy extension are attached as Attachment 3.

Plan/Proposal Analysis

Zoning

There are two parcels of land that make up the AurGroup property located at 1401 NW Washington Boulevard and the two properties are currently zoned differently. The property where the bank building is located is currently zoned R-O Multi-Family Residence/Office District and the adjacent parking lot parcel associated is currently zoned R-4 Multi-Family Residence District. AurGroup has submitted an application to rezone the parking lot parcel from R-4 Multi-Family Residence District and R-O Multi-Family Residence/Office District.

Surrounding zoning includes R-O Multi-Family Residence/Office District to the north, R-O Multi-Family Residence/Office District to the West, R-1 Single Family Residence District to the South, and R-4 Multi-Family Residence District to the east. The subject property has a total of approximately 83 feet of frontage along NW Washington Boulevard.

Building

Plans have been submitted for an expansion to the existing Credit Union Building drive-through canopy. The proposed canopy expansion would be built across lot lines, therefore a lot combination is necessary – the lots can only be combined if they have the same zoning classification. If the proposed rezoning is approved and the two lots combined the submitted canopy extension plans would go through the City of Hamilton Departmental Review process. The plans must adhere to all applicable building and zoning regulations.

Public Notification

A total of fifty four (54) public hearing notices were mailed to property owners within 500 feet of the subject property prior to the Planning Commission meeting. The Department received a number of phone calls with questions about the rezoning request. There were no objections expressed to the rezoning of 1401 NW Washington Boulevard.

Recommendation

The Planning Commission held a public hearing and reviewed the proposed rezoning regarding 1401 NW Washington, First Ward North Side, City Lot No. 23727, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District on April 18, 2016 and recommend approval by City Council.

It is the recommendation of this office that Council receives this report, concurs in the Recommendation of the Planning Commission, and adopts the necessary legislation to rezone 1401 NW Washington Boulevard (City Lot No. 23727), located in the City of Hamilton, First Ward North Side, from R-4 Multi-Family Residence District to R-O Multi-Family Residence/Office District.

Policy Issue

Does City Council wish to adopt legislation to authorize the execution of a Fiber Optic Lease Agreement with Southwest Ohio Computer Association?

Policy Alternative(s)

Council may choose not to adopt such legislation to authorize execution of a Fiber Optic Lease Agreement with Southwest Ohio Computer Association. Alternatively, Council may choose to authorize execution of a Fiber Optic Lease Agreement with Southwest Ohio Computer Association.

Staff Recommendation

Staff recommends that Council receive this report and adopt the necessary legislation to authorize execution of a Fiber Optic Lease Agreement with Southwest Ohio Computer Association. Entering into this Agreement will provide local schools access to an additional provider of telecommunications services, leveraging the City's investment in our fiber optic infrastructure.

Statutory/Policy Authority

- Section 3.09, Legislative Procedure, of the Charter of the City of Hamilton.

Fiscal Impact Summary

The fiscal impact of the proposed Fiber Optic Lease Agreement is projected additional revenue of \$779.61 monthly for the lease of existing dark fiber optic strands. Capital investment to connect their facilities with the municipal fiber optic system is required; however, under the terms of this agreement Southwest Ohio Computer Association has agreed to re-pay the City of Hamilton for its capital investment over the term of this agreement.

Background Information

Southwest Ohio Computer Association is interested in leasing existing City dark fiber cable to connect its facilities and possible future facilities. These connections would provide an additional telecommunication option for their facilities. The initial term of the agreement is three years with annual renewals thereafter by mutual agreement. The lease is anticipated to generate additional estimated monthly revenue of \$779.61.

For aerial installations, the Hamilton Cable includes any internal or external strength member, whether entirely dielectric or not. The SWOCA Leased Fibers shall consist of those described in Exhibit A-1 to this Agreement, which traverse the route(s) shown in the map attached as Exhibit A-2 to this Agreement.

ARTICLE 2 TERM AND TERMINATION

2.1 Term. The Term of this Agreement shall extend for Three (3) years from the Effective Date and any one- (1) year extension period mutually agreed to in writing by the Parties.

2.2 Renewals and Termination. This Agreement may be terminated at the end of the initial three (3) year period, or at the end of any one (1) year extension period agreed to by the Parties, by either Party providing written notice to the other Party of its intent to terminate this Agreement. Such notice shall be given at least one hundred eighty (180) days prior to the stated expiration date.

2.3 Early Termination of Agreement. This Agreement may be terminated prior the end of the Term upon any one of the following events:

(a) by either Party following an Event of Default, by the other Party, as set forth in Article 9 below;

(b) by either Party if the other Party consents to the appointment of, or taking possession by, a receiver, trustee, custodian or liquidator of a substantial part of its assets, files a bankruptcy petition in any bankruptcy court proceeding or answers, consents or seeks relief under any bankruptcy or similar law or fails to obtain a dismissal of an involuntary petition within 60 days of filing; or

Ordinance No. _____ (cont'd)

(c) by either Party if the other Party makes any material representation or warranty in this Agreement, which is incorrect and has a material and adverse effect on the other Party (as reasonably determined by such non-breaching Party), and such incorrect representation or warranty shall continue uncured for a period of thirty (30) days after written notice of such incorrect representation or warranty (except only where this Agreement specifically provides additional time and/or other options or remedies for any such failure; or, with respect to an obligation that is susceptible of cure within a reasonable time period so long as such Party is using its best efforts to promptly cure).

ARTICLE 3 OWNERSHIP AND RIGHT TO USE

3.1 Ownership. At all times, the ownership and possession rights to the Cable, and the ownership rights to SWOCA Leased Fibers, shall remain in Hamilton and SWOCA shall have no ownership interest therein.

3.2 Grant of Right to Use. Hamilton grants to SWOCA for the Term of this Agreement the exclusive right to use the SWOCA Leased Fibers along the routes as set forth in Exhibit A-1 ("Route"), which may occupy portions of Hamilton's electric distribution or transmission system, subject to the terms and conditions of this Agreement. SWOCA's right to use the Cable along the Route at all times shall be subordinate to Hamilton's obligation to provide a safe and reliable supply of electricity and other utility services to its customers. Nothing in this Agreement shall give SWOCA any right to sublease or assign in any way the SWOCA Leased Fibers or any portion thereof except with the express written approval of Hamilton. Nothing in this Agreement shall give SWOCA any right to use any Structure or other facility of Hamilton's except for the SWOCA Leased Fibers along the Route as covered by the terms and conditions of this Agreement. The grant in this Article 3.2 does not give SWOCA the right to splice the SWOCA Leased Fibers; provided, however, that upon reasonable request Hamilton agrees to splice SWOCA Leased Fibers at SWOCA's request at cost-based time and materials rate.

ARTICLE 4 INSTALLATION, OPERATION AND MAINTENANCE

4.1 Installation, Operation and Maintenance. Hamilton shall install, construct, operate, and maintain the Cable as defined in Article 1 and Exhibit A-1 along the Route, in accordance with the terms and conditions set forth in this Agreement.

Ordinance No. _____ (cont'd)

Any rerouting of fiber at the request of SWOCA will result in revisions to per mile monthly charge and any associated costs involved.

4.2 Casualty. If any portion of the Cable or the SWOCA Leased Fibers is damaged or destroyed by casualty at any time during the Term of this Agreement, the repairs and/or replacement will be performed in accordance with this Article 4.

4.3 Hamilton's Right to Maintain Service. Hamilton shall have the right to take all action necessary to maintain and repair Hamilton's property and maintain Hamilton's provision of utility services to its customers, provided that Hamilton shall take reasonable precautions to protect the Cable against damage. In the event of any service outage affecting the Cable, Hamilton shall have the right to repair its electric facilities first. If conditions permit, Hamilton may repair its utility facilities concurrently with the Cable or the SWOCA Leased Fibers. SWOCA acknowledges that a portion of the Cable containing SWOCA Leased Fibers will be placed on Structures that are part of Hamilton's electric distribution or transmission system and that at all times the safe and continuous operation of such system and the provision of electric service is Hamilton's foremost priority.

4.4 Relocations. In the event that, during the term of this Agreement, Hamilton is required by public authorities or by lawful order or decree of a regulatory agency or court to relocate or modify any or all Structures upon which the SWOCA Leased Fibers or any part thereof are located, Hamilton shall provide notice to SWOCA within forty-five (45) days after Hamilton is notified and prior to beginning such relocation. In any such an event, the costs of relocating, modifying or replacing the Cable and any SWOCA Leased Fibers thereby affected shall be paid by Hamilton. The Parties shall cooperate in performing such relocation or modifications of the Structures so as to minimize any interference with the use of the SWOCA Leased Fibers by SWOCA.

In the event of an emergency affecting Hamilton's Structures, Hamilton's provision of utility service to its customers, any of Hamilton's facilities or public safety, Hamilton shall be permitted to replace, remove and relocate the Cable or any portion thereof without prior notice to SWOCA, when such notice is not possible. Notice will be provided at the earliest possible time and Hamilton shall incur no liability to SWOCA or its customers for service interruptions in connection with any such removal or relocation.

Ordinance No. _____ (cont'd)

4.5 Rights of Way. Subject to the provisions of Article 4.4, above, Hamilton's obligations to install and maintain the Cable and the SWOCA Leased Fibers along the Route(s) is limited by the rights of way, easements, locations, licenses, or other land rights currently held by Hamilton or made available to Hamilton by SWOCA. SWOCA shall not be responsible to obtain any additional easements, rights of way, permits, licenses, or other permissions for the installation of the Cable along the Routes or for any modifications or extensions thereof. Hamilton shall be responsible to acquire any additional rights of way, easements or other land rights necessary to install the Cable along the Route(s) or for any modification or extension thereof, and any costs incurred by Hamilton in so doing shall be for SWOCA account.

4.6 Rights to Locate Structures. Hamilton represents that, to the best of its knowledge, Hamilton has sufficient legal rights (whether contractual, pursuant to applicable law, arising from Hamilton's relationship with the underlying property owner or otherwise) authorizing it to locate its Structures and the Cable on the Route and that it is not aware of any prohibitions or restrictions in any of the rights that it may have to its leasing the SWOCA Leased Fibers to SWOCA. In the event that Hamilton should intend in the future to abandon any Structure bearing the Cable, Hamilton shall notify SWOCA of its intent to abandon the Structure(s) and the Cable located on the Route as soon as is reasonably possible following Hamilton's decision to abandon the Structure(s) and the Cable but in no event less than ninety (90) days prior to the effective date of such abandonment.

ARTICLE 5 COSTS AND CHARGES

5.1 Lease Payment. SWOCA shall pay Hamilton, annually in advance, per fiber optic pair for the first fiber optic mile, a monthly lease rate of \$44.96 (annual rate, \$539.57). SWOCA shall pay Hamilton, annually in advance, per fiber optic pair for additional fiber optic miles on the same pair, a monthly lease rate of \$29.98 (annual rate, \$359.71), per mile for the SWOCA Leased Fibers as defined in Article 1 and Exhibit A-1, for a total monthly lease rate of \$779.61.

5.2 Extensions. As part of this Agreement, SWOCA has requested that the City extend its fiber optic facilities as described in Exhibit A-2 at an estimated cost of \$12,344.00. SWOCA agrees to reimburse the City for the cost of said facilities extension in 36 equal installment payments of approximately \$342.88 per month during the initial term of this Agreement. This monthly facilities extension

Ordinance No. _____ (cont'd)

installment payment is in addition to the monthly fiber optic lease rate in Section 5.1 above. Said fiber optic facilities extension shall become part of and included in the SWOCA Leased Fibers as defined in Article 1 and Exhibit A-1.

In the event that additional extensions of Hamilton facilities are required under this Agreement, the terms, conditions and pricing governing the installation and implementation of each such extension shall be separately negotiated by the parties.

5.3 Performance Conditioned on Payment. Payment in full of all costs due hereunder shall be a condition precedent to Hamilton's obligations under this Agreement. Payments not received within 30 days are subject to a 1.5% per month late fee.

ARTICLE 6 REPRESENTATIONS AND WARRANTIES

6.1 Work Clearances and Related Delays. SWOCA acknowledges that, with respect to contingency line operating conditions and all other issues affecting clearance to work on the Cable by the City, such work shall be subordinate to Hamilton's obligation to provide a safe and reliable supply of electricity and other utility services to its customers.

6.2 Interruption of Service. Hamilton makes no representations or warranties for continuous service. The Parties acknowledge that service interruptions may occur from time to time in which case Hamilton will use reasonable efforts in accordance with Good Utility Operating Practice to restore service in a prompt manner. Hamilton's obligation to restore service, however, is subordinate to its obligation to provide utility services to its customers. For purposes of this Agreement "Good Utility Operating Practice" means the practices, methods and acts engaged in or approved by a significant portion of the electric power industry during the relevant time period, or the practices, methods and acts which in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result consistent with reliability, safety, expedition, the requirements of governmental agencies having jurisdiction; such term is not intended to be limited to the optimum practice, method or act to the exclusion of all others, but rather to constitute a spectrum of acceptable practices, methods or acts.

ARTICLE 7

FORCE MAJEURE

Force Majeure. Neither Party shall be liable for any costs, losses or damages incurred by the other Party for any failure to perform its obligations hereunder where such failures arise from or are in consequence of any event of Force Majeure, including but not limited to an act of God, natural disaster, war, civil disturbance, fire, explosion, failure of electrical distribution equipment, any federal, state or local law or any rule, regulation or order of a court or other governmental agency, labor disputes, inability to secure materials, or any other cause or causes, whether similar or dissimilar to the causes enumerated above, beyond the reasonable control and without the fault or negligence of the party asserting Force Majeure. In no event shall a claim of Force Majeure excuse the timely payment of amounts due and owing under this Lease. The Party asserting Force Majeure must give notice in writing to the other Party as soon as practicable after the occurrence of the cause relied on and such cause shall be remedied with all reasonable dispatch.

ARTICLE 8 LIMITATION OF LIABILITY

8.1 Limitation of Hamilton's Liability. Except for gross negligence, willful misconduct, or as otherwise provided for herein, Hamilton shall not be liable to SWOCA with respect to any action, claim, damages or expense, brought on or incurred by SWOCA in connection with the occupancy of the space or installation, provision, preemption, termination, maintenance, repair or restoration of services hereunder. Hamilton disclaims any and all loss or liability resulting for access delays or interruptions in service. IN NO EVENT SHALL HAMILTON BE LIABLE TO SWOCA OR TO ITS CUSTOMERS, WHETHER IN CONTRACT, TORT, OR OTHERWISE, INCLUDING STRICT LIABILITY, FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY LOST BUSINESS DAMAGES IN THE NATURE OF LOST REVENUES OR PROFITS. IN NO EVENT SHALL HAMILTON'S LIABILITY IN TORT EXCEED THAT PROVIDED BY THE OHIO POLITICAL SUBDIVISION TORT CLAIMS ACT, OHIO REVISED CODE CHAPTER 2744.

8.2 Limitation of SWOCA's Liability. IN NO EVENT SHALL SWOCA BE LIABLE TO HAMILTON OR TO ITS CUSTOMERS, WHETHER IN CONTRACT, TORT, OR OTHERWISE, INCLUDING STRICT LIABILITY, FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY LOST BUSINESS DAMAGES IN THE NATURE OF LOST REVENUES OR PROFITS.

Ordinance No. _____ (cont'd)

8.3 Waiver of Jury Trial. EACH PARTY WAIVES ITS RESPECTIVE RIGHT TO ANY JURY TRIAL WITH RESPECT TO ANY LITIGATION ARISING UNDER OR IN CONNECTION WITH THIS AGREEMENT.

ARTICLE 9 DEFAULT

9.1 Events of Default. Unless excused by an Event of Force Majeure as defined in Article 7, a Party shall be considered in default of this Agreement should one or more of the following events occur:

(a) Admission in writing of the Party's inability to pay its debts when due; making a general assignment for the benefit of creditors; the institution of any proceeding, whether voluntary or involuntary, seeking to adjudicate that Party bankrupt or insolvent; seeking reorganization, arrangement, adjustment, or composition of it or its debt under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, seeking appointment of a receiver, trustee, or other similar official for it or for any substantial part of its property; or taking any action to authorize any of the actions set forth above;

(b) Failure of that Party to perform, in a material respect, any other obligation under this Agreement in accordance with the terms hereof. For purposes of this Agreement a material breach shall mean a failure to perform (whether any such failure shall arise as the result of the voluntary or involuntary action or inaction of such Party), in any material respect, any of its obligations set forth in this Agreement, including without limitation failure to make payments when due, and any violation of law (which is material and which adversely affects either Party's obligations under the Agreement) and such failure shall continue uncured for a period of 30 days following written notice from the non-breaching Party or such shorter period of 30 days following written notice from the non-breaching Party or such shorter period as may apply under law (the "Cure Period"). The sublease or assignment of SWOCA's right to use the SWOCA Leased Fibers without Hamilton's prior written consent (other than a conditional assignment by SWOCA to a lender or lenders in connection with the creation of a collateral security interest to secure a loan or other extension of credit by such lender to SWOCA in accordance with Section 10.1 of this Agreement) shall constitute a material breach of this Agreement. A Party's exercise of its right to terminate this Agreement as provided herein shall not affect its ability to pursue

Ordinance No. _____ (cont'd)

any and all rights it may have against the breaching Party now or hereafter under the law, subject to the limitations in this Agreement.

9.2 If either Party shall remain in default under any material provision of this Agreement for a period of thirty (30) days after notice by the other Party of such default, the Party so notifying the other Party may, at its option, terminate this Agreement as provided in Article 3. Upon such termination the terminating Party shall have no further obligations or liability to the other Party.

ARTICLE 10 MISCELLANEOUS PROVISIONS

10.1 Assignment. This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns where permitted by this Agreement. Neither Party shall assign, transfer, delegate or in any other manner dispose of, any of its rights, privileges or obligations under this Agreement without the other Party's written consent, which will not be unreasonably withheld; except a Party may assign this Agreement (the "Assignor") without consent: (i) to an affiliated entity controlling, controlled by or under common control of their respective parents; (ii) in connection with a transaction pursuant to which the Assignor sells all or substantially all of its business, assets or equity interests; and (iii) a transfer, pledge or assignment of its rights to receive performance under a transaction as security for any financing with financial institutions, as long as such assignee has the same technical and financial ability as the Assignor to perform all of Assignor's obligations under the Agreement, such assignee undertakes the legal obligations to perform all of Assignor's obligations under the Agreement and Assignor shall remain jointly and severally liable for all of its obligations under the Agreement, and any attempt to make any such assignment, transfer or disposition without consent shall be null and void.

10.2 Notices.

(a) Form and Address. All notices, invoices and other communications from either Party to the other hereunder shall be in writing and shall be deemed received (1) upon actual receipt when personally delivered, (ii) upon acknowledgment of receipt if sent by facsimile, (iii) upon the expiration of the third business day after being deposited in the United States mails, postage prepaid, certified or registered mail, or (iv) upon the expiration of one business

10.4 No Joint Venture. This Agreement is not intended to create nor shall it be construed to create any partnership, joint venture, employment or agency relationship between SWOCA and Hamilton.

Fiber Acceptance Testing Procedures and Standards

All splices will be performed with an industry accepted fusion splicing machine. Hamilton will perform two stages of testing during the repair of a fiber cable route. As soon as fiber connectivity has been achieved, Hamilton will verify and record the continuity of all fibers. Hamilton will take and record power loss readings on all fibers in both directions. Hamilton will perform bidirectional OTDR tests on all fibers.

After Hamilton has completed end-to-end connectivity on the fibers, bidirectional span testing will be done. Continuity tests will be done to verify that no fibers have been “frogged” or crossed in any of the splice points. Once the fiber has been connected, loss measurements will be recorded using an industry-accepted laser source and a power meter. OTDR traces will be taken and splice loss measurements will be recorded. Hamilton will store OTDR traces on retrievable electronic medium and on data sheets. Laser Precision format will be used on all traces. Copies of all data sheets and tables, and one set of diskettes with all traces will be available to SWOCA

The power loss measurements shall be made at 1550 nm and 1310 nm, and performed bidirectionally. OTDR traces shall be taken in both directions at 1550 nm and 1310 nm.

The splicing standards are as follows:

- ♦ The loss value of the connector will not exceed 0.75 dB. This value does not include the insertion loss from its connection to the OSX (read comments below). For values greater than this, the connector will be replaced until an acceptable loss value is achieved. If, after three attempts, Hamilton is not able to produce a loss value less than 0.75 dB, the connector will be marked as Out-of-Specification (“OOS”) on the data sheet. Each connector attempt shall be documented on the data sheet.
- ♦ During installation, and during any restoration activity caused by fiber cuts or other events, the objective for each splice is a loss of 0.30 dB or less. If, after two additional attempts, a value of less than 0.30 dB is not achievable, then the splice will be marked as OOS on the data sheet. Each splicing attempt shall be documented on the data sheet.

Ordinance No. _____ (cont'd)

- ♦ During end-to-end testing of a span (a span shall be OSX to OSX), the objective for each splice is a bi-directional average loss of 0.15 dB or less.
- ♦ The maximum bi-directional loss for each splice shall be 0.25 dB.
- ♦ The entire fiber optic cable system shall be properly protected from foreign voltage and grounded with an industry-accepted system.

The fibers shall be terminated to the OSX with SC-UPC connectors (max return loss of -0.75dB and a typical of -0.75dB), unless another type of connector is specified. Jumpers shall be manufactured with standard single mode fiber or equivalent.

Testing for Segments for which the Segment End Point is other than a SWOCA point of presence shall be performed in a coordinated fashion, so that SWOCA shall connect and test the fiber owned by it in conjunction with Hamilton's testing of the SWOCA Leased Fibers. In the event that the entire tested portion does not satisfy the testing criteria set forth herein, SWOCA and Hamilton shall work together in good faith to pinpoint the cause of the problem and each party shall be responsible for the timely performance of such repairs on the fibers owned by it (so that Hamilton shall only be responsible for repairs needed to bring the Leased Fibers into compliance with this Exhibit). Hamilton may (in the event of a dispute respecting testing and acceptance of the Leased Fibers within any such Segment) arrange to have the Leased Fibers tested only to the Segment End Point and, if such Leased Fibers meet the testing criteria set forth herein SWOCA shall be obligated to accept and pay for such Leased Fibers (notwithstanding the fact that the fibers connected to point of presence may not be functioning properly).

Policy Issue

Does City Council wish to adopt legislation to amend Subparagraphs 935.02(e)(1)(2) for all Hamilton Wastewater Utility customers and repeal the existing versions?

Policy Alternative(s)

Council may choose not to adopt such legislation amending Subparagraphs 935.02(e)(1)(2) and repealing the existing versions. If Council chooses this option, the current Sewer Rate Ordinance will remain in effect.

Staff Recommendation

Staff recommends that Council receive this report and adopt legislation to amend Subparagraphs 935.02(e)(1)(2) for all Hamilton Wastewater Utility customers and repeal the existing versions. By adopting the proposed legislation, sewer base rate revenue will be adjusted 3% per year over five years to meet the long-term needs of the Wastewater Utility, including sanitary sewer collection system infrastructure. The first proposed annual rate adjustment in the Ordinance would become effective with bills rendered on and after August 1, 2016.

Statutory/Policy Authority

- Section 3.09, Legislative Procedure, of the Charter of the City of Hamilton.

Fiscal Impact Summary

To minimize the financial impact to local consumers, a proposed five-year rate plan was developed to phase in smaller rate adjustments of approximately 3% annually from 2016 through 2020. This would result in an increase of approximately \$1.00 per month for a typical City residential wastewater customer using 600 cubic feet (4,488 gallons) of water. The rate plan includes refinancing outstanding 2005 Wastewater Utility revenue bonds. Current low interest rates are projected to decrease annual debt service costs by approximately \$850,000 for the first 5 years while extending the term of the bonds only an additional three years. The rate plan includes scheduled increases in annual capital improvements funding from approximately \$850,000 in 2017 to \$3 million in 2021.

Background Information

The sanitary sewer collection system consists of approximately 235 miles of sewers ranging in size from eight inches to 60 inches in diameter and 5,603 manholes. Seven lift stations pump wastewater from lower elevations to higher elevations, allowing it to flow by gravity to the Water Reclamation Facility (WRF) for treatment.

In 2007 the City adopted a five-year sewer rate plan that included annual 5% rate adjustments from 2008 through 2012. This rate plan was implemented in part to pay for the recently completed Phase I and Phase II WRF Improvements and the Sanitary Sewer Interceptor Project at a cost of approximately \$40 million. These improvements were designed to meet the requirements of a 2007 EPA Modified Consent Order that required the City to mitigate Sanitary Sewer Overflows (SSOs) and provide full treatment of all wastewater received at the WRF. Sewer rates have not changed since 2012.

In 2012 Mohawk and SMART Papers, the Wastewater Utility's largest customers, ceased operations. This resulted in a loss of approximately 1.2 billion gallons of annual sales and approximately \$1.8 million per year in system revenue.

In 2015, the City engaged Courtney and Associates of Findlay, Ohio, to prepare a Wastewater Utility Cost of Service and Rate Study. The purpose of the Study was to review the Utility's revenue requirements and recommend sewer rates designed to recover the cost of providing wastewater collection and treatment service, including recovery of operation and maintenance expenses, debt service payments and capital improvement costs for the period of 2016 through 2020.

The initial cost of service study results indicated a 22% overall revenue increase was required during the Study period. To minimize the financial impact to local consumers, a proposed five-year rate plan was developed to phase in smaller rate adjustments of approximately 3% annually from 2016 through 2020. This would result in an increase of approximately \$1.00 per month for a typical City wastewater customer using 600 cubic feet (4,488 gallons) of water. Furthermore, the rate change includes eliminating the 2 Ccf minimum usage charge. Customers who have zero consumption will see a \$6 decrease and customers who use 1 Ccf will see a \$2.50 decrease to their monthly bills due to the minimum usage change.

The rate plan includes refinancing outstanding 2005 Wastewater Utility revenue bonds. Current low interest rates are projected to decrease annual debt service costs by approximately \$850,000 for the first five years while extending the term of the bonds only an additional three years.

The five-year rate plan anticipates phasing in increases in sanitary sewer collection system capital improvements expenses, including South Hamilton Crossing, the Champion Sports Complex, and annual sewer lining/replacement and manhole replacement projects. Furthermore, the plan includes \$100,000 per year to replace/repair residential sanitary sewer laterals within public right of ways. A lateral repair in the public right of way could potentially cost a customer \$10,000-20,000. Based on annual depreciation expense, estimated system component life and replacement expenses, approximately \$3 million in annual capital improvements are required to maintain long-term system reliability. From 2010 through 2015, annual sanitary sewer collection system capital improvement expenditures averaged about \$350,000. Approximately 60 manholes (\$600,000) and 1.2 miles of sanitary sewers

(\$1.6 million) should be replaced or lined annually based on estimated service life. The rate plan includes scheduled increases in annual capital improvements funding from approximately \$850,000 in 2017 to \$3 million in 2021.

These sanitary sewer collection system capital improvements are expected to help decrease future operation and maintenance expenses associated with Inflow and Infiltration (I&I) by reducing expenses associated with transporting, pumping and treating stormwater and groundwater that enter the collection system.

Policy Issue

Does City Council wish to pass a resolution supporting Property Assessed Clean Energy Program (PACE). By passing a resolution supporting PACE, the City of Hamilton demonstrates a willingness to establish an Energy Special Improvement District (ESID) to assist Hamilton businesses in their energy savings investment projects.

PACE is an innovative financing program established to assist property owners in making renewable energy and energy efficiency investments in facilities. The Greater Cincinnati Energy Alliance, a local non-profit economic development agency, is working with several jurisdictions through SW Ohio to support PACE investment and has expressed a willingness to do the same with the City of Hamilton and its business community. Under the PACE program, property owners make improvements to achieve energy savings, receive 100% financing from the program, and repay the cost of the improvement through a property tax assessment for no more than 30 years. A major benefit of the PACE program is it allows property owners to make more immediate and substantial energy efficient investments to their facilities without requiring them to pay the total cost of the improvement upfront. The current terms of PACE are approximately 6% interest for up to 30-years and can be for up to 35% of the property's value.

By passing a resolution supporting PACE, the City of Hamilton demonstrates a willingness to establish an Energy Special Improvement District (ESID) to assist Hamilton businesses in their energy savings investment projects. The passing of a resolution does not mean that the City of Hamilton is endorsing the program, but rather the resolution simply makes PACE an option for businesses to consider within our municipality.

Policy Alternative(s)

Council may choose not to adopt such legislation to support PACE, which would make the program unavailable to businesses within the city. Alternatively, Council may choose to wait to pass a resolution once a company requests that the City of Hamilton establish an ESID so that they can utilize the PACE program.

Staff Recommendation

Staff recommends that Council receive this report and adopt the legislation to support the use of PACE in Hamilton. Currently, if a business reaches out to the Greater Cincinnati Energy Alliance about utilizing the program, Hamilton is not on the list of jurisdictions that have passed resolutions to allow PACE to be used. Passing this resolution will add us to their list of jurisdictions that allow PACE to be used.

Statutory/Policy Authority

- Section 3.09, Legislative Procedure, of the Charter of the City of Hamilton.

Fiscal Impact Summary

No fiscal impact to passing this resolution.

GC-PACE | ENERGY EFFICIENCY FINANCING

Your Energy Savings Can Pay to Upgrade Your Building

Property Assessed Clean Energy financing, or PACE, is an economic development tool designed to allow commercial and industrial building owners to finance energy efficiency and renewable energy improvements through a voluntary special assessment attached to the property.

The Greater Cincinnati Energy Alliance is bringing this unique financing tool to Southwest Ohio.

PACE Statistics

NATIONALLY:

- **31** states with PACE legislation
- **480+** projects
- **\$190+ Million** in projects funded

OHIO:

- **125+** projects
- **\$30+ Million** in projects funded

PACE is *Effective* Financing

Non-Debt Financing

- Improvements can proceed without up-front capital expenses
- Property owners can preserve credit lines for other investments

Long-Term Fixed Rate

- Provides an immediate return on investment through savings
- Repaid as a long-term special assessment on the property for up to 25 years

Less Risk

- The cost of the PACE assessment, as well as the energy savings, can be passed along to the tenant under some lease types
- PACE assessments are attached to the property and transfer upon sale
- Improvements can lower operating costs while increasing property values
- Capital is secured by a priority assessment on the property, so long-term capital can be raised from the private sector

PACE Improves Your Building and, in turn, Improves Your Business

Eligible Projects

- Heating, ventilation, and cooling
- Building automation systems
- Combined heat and power systems
- Solar photovoltaic (PV) systems
- Lighting and lighting controls
- Elevator modernization
- Building envelope measures
- Industrial and manufacturing equipment
- Building data center equipment
- Pumps, motors, and drives
- Other qualifying energy saving measures

The GC-PACE Process

- 1. Interest Form**

The property owner completes a brief interest form to help GC-PACE determine if the project and property is a good candidate for PACE financing.
- 2. Quantified Energy Savings**

The property owner works with a GC-PACE participating contractor to identify energy saving improvements and determine the estimated cost savings. This will enable GC-PACE to develop an initial financing proposal that compares the costs and benefits of the project.
- 3. Application**

The property owner provides financial documentation and the final scope of work to GC-PACE in order to finalize financial underwriting. In addition, the property owner must obtain written consent from the existing mortgage holder to place the PACE special assessment.
- 4. Financing**

The property owner receives a financing contract from GC-PACE. Once executed, a PACE special assessment will be placed on the property by the local jurisdiction in order to provide long-term financing for the project.
- 5. Installation**

The contractor selected by the property owner completes the installation of the project as approved in the financing contract.

Ivy Knoll Senior Retirement Community Invests with PACE

About the Project

Ivy Knoll Senior Retirement Community found PACE financing to be a perfect funding solution to make significant building improvements of systems that were outdated or extremely energy inefficient. Through PACE financing, Ivy Knoll management was able to select improvements that had the highest energy savings but also came with higher upfront costs for the 7-story, all-electric building.

“PACE allowed us to make many of the energy related improvements that we might have otherwise deferred,” said Ray Schneider, the owner of Ivy Knoll. “We were able to improve the comfort and convenience for residents and reduce the building’s energy footprint.”

Ivy Knoll, located in the City of Covington, is the first energy project in the Commonwealth of Kentucky to use the new PACE financing law.

“We are excited to bring PACE financing to Northern Kentucky,” said Andy Holzhauser, the CEO of the Energy Alliance. “This is a big step forward in that PACE financing allows property owners to reduce their energy consumption with no down payment and with fixed, long term payments via their property tax bill.”

About KY-PACE

KY-PACE is a new program available to commercial, industrial, and multi-family building owners across the Commonwealth. PACE provides access to low-cost, extended term capital to finance energy efficiency and water efficiency improvements.

Project Financing

PROJECT TOTAL: \$750,000

TERM: 20 years

INVESTOR: Inland Green Capital LLC

Improvements:

SOLAR PANELS: largest privately-owned electric generating system in Northern Kentucky generating over 64,000 kilowatt hours annually

LED LIGHTING: estimated electricity savings in excess of \$12,000 annually

ELEVATOR MODERNIZATION: energy efficient technology estimated to reduce energy consumption by 40%

HEATING & COOLING: units with automated controls that can be operated from a central control system, therefore allowing the building to turn off vacant apartments without visiting the individual room: estimated energy savings of 20%.

 Property Assessed Clean Energy

Key to getting this project off the ground was financing availability.

GEM Energy assisted the school in applying for funds through the Toledo-Lucas County Port Authority's Better Buildings of Northwest Ohio energy efficiency program.

The program uses Property Assessed Clean Energy (PACE) financing, a national initiative that provides an innovative way for commercial property owners to pay for energy efficiency upgrades, on-site renewable energy projects and water conservation measures. PACE funding covers 100 percent of a project's costs and is repaid through a building assessment on biannual property taxes, helping to preserve a business's capital budgets and operating funds.

TOLEDO | LUCAS COUNTY

PROGRAM

“With the Better Buildings Northwest Ohio PACE financing, we were able to upgrade our entire building to achieve improved energy efficiency savings and overall comfort without negatively impacting our monthly cash flow. The property assessment, as part of our semi-annual tax bill, will give us the flexibility we need to make improvements now and pay for them later, once we begin to realize the savings from the new efficiencies.”

Policy Issue

Does City Council wish to adopt legislation to approve this 2016 Supplemental Ordinance?

Policy Alternative(s)

Council may choose to not adopt this Supplemental Appropriation Ordinance. If Council does not adopt legislation, the City will not have enough funds appropriated to cover costs associated with the items addressed in the Fiscal Impact Summary.

Staff Recommendation

Staff recommends that Council receive this report, concur in the recommendation and adopt the necessary legislation. The ordinance will balance accounts and provide the authority to make expenditures.

Statutory/Policy Authority

- ORC 5705.38 Annual appropriation measures; classification
- ORC 5705.40 Amending or supplementing appropriation; transfer unencumbered balance; contingencies
- Section 3.09, Legislative Procedure, of the Charter of the City of Hamilton.

Fiscal Impact Summary

GENERAL FUND:

- Make available \$29,300 in additional appropriations to replace traffic signal equipment at the Enterprise Drive and Symmes Road intersection that was struck by a vehicle. This will be expensed out of the Public Works Department Traffic Division in the General Fund (100.130.135) and will be reimbursed from the Street Maintenance Fund (281) (50%) and the Electric Utility Fund (502) (50%). Insurance proceeds of approximately \$29,300 have been received to offset this cost (50% Street Maintenance Fund (281) and 50% to the Electric Utility Fund (502)).

CAPITAL FUNDS:

- Appropriate \$89,935 out of the Clean Ohio Grants Program Fund (310) related to the Smart Paper and the 845 East Clean Ohio projects. Revenue for the same dollar amount is anticipated from the State of Ohio so the net impact to the Clean Ohio Grants Program Fund (310) should be zero.
- Appropriate \$60,560 in the Infrastructure Renewal Program Fund (311) to purchase asphalt to pave a new parking lot at Millikin Woods. This expenditure will be offset by a reimbursement from the Parks Conservancy for the same amount.
- Appropriate \$1,800 to the Tippman Properties MPITIE Fund (354) related to recording auditor fees and payments made to the Hamilton School District for their share of the TIF revenue. The first half settlement tax increment financing (TIF) revenue came in higher than anticipated and additional appropriations will be needed to record the second half settlement from Butler County later in 2016. As a result of this change will be an increase in budgeted TIF revenue to Fund 354 to reflect this change in activity.

ENTERPRISE FUNDS:

- Increase appropriations in the personnel and benefit classification \$244,000 in the Hydroelectric Operations Fund (524) for salary and overtime costs related to the Meldahl Hydroelectric Power Plant. Meldahl became commercial on 04/12/2016 and overtime costs came in higher than anticipated during the commissioning process. There will be an increase to budgeted revenue to the Hydroelectric Operations Fund (524) in the same amount of \$244,000 for the anticipated reimbursement to be received from American Municipal Power related to Meldahl.
- Increase appropriations \$672,773 to the Electric Utility Fund (502.520) for non-personnel expenditures related to the Greenup Hydroelectric Power Plant. After 04/12/2016 once the Meldahl Hydroelectric Power Plant became commercial American Municipal Power will begin to reimburse the City of Hamilton 100% of Greenup's Operation & Maintenance expenditures. As a result budgeted revenue in the Electric Utility Fund (502) will be increased \$436,250 to reflect the anticipated reimbursement from American Municipal Power. The City will be then be charged their applicable percentage of the project costs through the monthly power supply bill from American Municipal Power based on the ownership share of the City in the Greenup and Meldahl projects (51.4%).
- Increase appropriations \$143,828 to transfer out from the Electric Utility Fund (502) to the Electric System Reserve Fund (527) related to the Greenup sale proceeds net of the outstanding balance of the 2015 Electric Bond Anticipation Notes. The amount of interest expense for the outstanding 2015 notes came in less than expected and the additional funds will be transferred to the Electric System Reserve Fund (527). This increase in appropriations will be offset by a reduction in appropriations in the Electric Utility Fund (502) for the interest expense on the 2015 notes by \$143,828.
